

PIG® Oil-Only Absorbent Mat Pad

#MAT403 - Heavy-weight • 15" x 20" • 100 pads

Clean up oily leaks and spills without taking in a drop of water. Durable PIG Mat construction stays strong even when saturated.

- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fiber construction won't leave behind liquids or fiber residue
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Bright white color makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response
- Floats to clean up spills on water
- Can be wrung out and incinerated after use to reduce waste or for fuels blending
- Flame-resistant material won't burn immediately like cellulose mats; melts when exposed to high heat while on the job
- Pads are ideal for catching drips and soaking up spills
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups

MAT403 Specifications

Color:	White
Dimensions:	15" W x 20" L
Mat Weight:	Heavy-weight
Fluids Absorbed:	Oil-based Liquids But Not Water
Absorbency:	Up to 22 gal. per bag
Absorbency per:	Up to 28.16 oz. per pad
Dispenser:	No
Perforated:	Centered Widthwise
Poly-Backing:	No
UV Resistant:	No
Sold as:	100 pads per bag
Weight:	17 lbs.
National Stock Number (NSN):	4235-01-528-0390
# per Pallet:	30
Composition:	100% polypropylene

MAT403 Metric Equivalent

Dimensions:	38.1cm W x 50.8cm L
Absorbency:	Up to 83.3 L per bag
Absorbency per:	Up to 832.7 mL per pad
Weight:	7.7 kg

Technical Information

Warnings & Restrictions:

There are no known warnings and restrictions for this product.

Regulations and Compliance:

40 CFR 122.26 - When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

40 CFR 112.7 - SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
