

The handy all-rounder for precise and effortless cutting. The Merak is a safety knife with fully automatic blade retraction, which is ideally suitable for cutting most packaging materials. A design using high quality plastics in a convenient and ergonomic shape is the key to efficient work practices. That means low-fatigue work practices and high productivity for the company. Thanks to the shallow cutting depth of 11 mm the risk of damage to the contents is minimised when cutting into cardboard boxes. Designed with a squeeze-grip, this knife is perfectly suitable for both left and right-handed users. The blade is changed simply, quickly and safely without using any tools. "GS-TESTED FOR SAFETY".

NEW

Installed Blade:
